

# U. S. AGREES ON ARMS DELIVERY TO NEIGHBORS

## Sale Of 5,000 Enfield Rifles With Ammunition And Eight Planes Announced

### LEFT OVER FROM WORLD WAR

#### First Consignment Of Munitions To Federals Involves About \$400,000

By Associated Press  
Washington, D. C. — Secretary Weeks Friday afternoon announced the sale of 5,000 Enfield rifles, 5,000 rounds of ammunition for the rifles, and eight Dornier D-4 surplus aeroplanes to the Mexican federal government.

The transaction was completed during the day when word came by wire to Mexican agents that the government had transferred funds necessary to make one-half of the payment in cash, the balance to be paid in thirty days.

The terms fixed by Secret Weeks were equivalent to a consignment and were accepted by Mexican government, paying the balance for immediate delivery of the war munitions at the army depots where they are stored.

#### SALE INVOLVES ABOUT \$400,000

Under the terms of the sale the war munitions will turn over the rifles and ammunition at Fort Sam Houston and Fort Bliss, while the airplanes will be delivered from the depot at Fairfield, O.

The Mexican government will make its own arrangements for shipment to the border. Orders were issued at once for delivery of the military supplies to designated Mexican agents, the delivery of the munitions at the depots on Saturday.

Although the statement issued by Secretary Weeks did not disclose the total amount of money involved in the sale, on the basis of prevailing prices it would appear to be less than \$400,000, an Enfield rifle sells at about \$85 each and surplus ammunition at about \$15 per 1,000 rounds, while the airplanes would be valued at about \$12,000 each.

#### NO ARTILLERY ASKED

Mr. Weeks did not say what other equipment the Mexican government had asked for in its original list. He stated, however, that the airplanes to be sold were not of the latest machine gun type, but of the type used in the war.

The war secretary also said there was no project for the sale of field artillery and artillery ammunition now under consideration.

The Enfield rifles were turned out after the United States entered the war to supplement the supply of Springfield rifles, and since have been recalled from service and stored as surplus.

The ammunition also will come from surplus stocks manufactured during the war. So far as known there has been no important deterioration in it. The airplanes were manufactured in this country in considerable quantities in the closing days of the war, and although the planes that will be delivered to Mexico have been used, they are in good shape and are equipped with the war-built Liberty motors, which give them great speed for observation planes. They are two seaters and well qualified for scouting and communication work.

#### THREE DEATHS IN FAMILY WHERE TRAGEDY LURKS

Fond Du Lac—With the death of Miss Margaret Ohmnd, 28, daughter of Albert Ohmnd, Lomira, another chapter in a series of tragedies to invade the Ohmnd home was written.

It was the third unexpected death in the family within short time, and claimed the loss of \$18,000 sustained by Albert Ohmnd in an investment in western mortgages. The hard luck even reached out and involved a son, Oscar, residing in Milwaukee, who, with his wife, had invested their savings, amounting to \$4,000 in western mortgages and lost all.

Three years ago Mrs. Albert Ohmnd and mother of the girl, dropped dead in the kitchen of their home while reading a letter from her daughter. Mrs. Freda Schultz of Auburn, Minn., was ill and the shock cost the life of the mother. One month after the mother died the body of the daughter, Freda, was brought from Auburn in a coffin.

#### LONE VOLUNTEER RAIDER IS ON JOB AT RACINE

Racine—On evidence furnished by a "lone raider" warrants for proprietors of six saloon drink parlors and stores were served. The "lone raider" is a citizen of Racine, Wis., whose intention and ambition is to apprehend as many violators of the eighteenth amendment as possible. On his last tour he wore a soldier's uniform. The six defendants had their hearings adjourned to Jan. 11. They are: Frank Hintz, Mike Balane, L. J. White, Kuzi, Mike Stefanowicz, Mrs. Tony Wilbert and Mrs. Virginia Shilinski.

#### DEATH FOLLOWS SLIGHT SCRATCH ON MAN'S HAND

Merrill—A mere scratch has cost Charles Setman, 41, of Bloomville his life. On Dec. 24, he assisted in the slaughter of hogs and scratched his hand on a sharp piece of bone. He later followed by his death at a hospital Thursday.

# One Man Control Gives Unity To U. S. Shipping

## DRAW JURY ON MONDAY TO TRY DIETZLER CASE

### Elimination Of Board Or Commission Management Brings Merchant Marine To Businesslike Status

By DAVID LAWRENCE  
Copyright, 1924 by the Post Pub. Co.  
Washington—One man control has won a victory over the board or commission method of management. The shipping problem is at last on its way to a businesslike solution.

More harmony prevails today in the councils of the government as to the handling of the American Merchant Marine than at any time since the Harding plan for a ship subsidy forced the administration to seek alternatives of policy.

And the evolution which has been taking place is exactly what occurred during the war when efficiency compelled the delegation of power to one man rather than group in order to end wranglings and disputes and prevent serious delays.

The new plan for the handling of the ship problem means that the United States Shipping board will hereafter assume a place in the governmental scheme of things not unlike the Interstate Commerce Commission. What the latter is to railroads and land transportation, the shipping board will be to ships and ocean traffic.

#### WILL REGULATE RATES

The regulation of rates and the supervision not only of government owned ships but American vessels operated by private companies, will be the principal tasks of the United Shipping board.

Operation of the government owned fleet will be directly under the emergency fleet corporation of which former Rear Admiral Leigh Palmer is to be president. He will have the same powers and authority as the president of any corporation has in private business. He will technically be responsible to the United States Shipping board but only until such time as new legislation can give him and the fleet corporation a separate status.

The shipping board, under the present law, can delegate its power and authority to operate ships and the board after a conference with President Coolidge last night agreed to give the new president of the fleet corporation the necessary power under the law. Ultimately new legislation will have to be passed, but for the present the plan can be carried into operation without delay.

The fact that the president is saved which might otherwise be taken up in controversial debate in congress.

#### ELIMINATES POLITICS

The main victory is that which makes of the fleet corporation a business institution divorced from the political influences that have about the shipping board, freed from the hampering conference and prolonged controversies in which a board invariably becomes absorbed, and able now to function on a par with the privately owned and privately managed steamship companies of foreign countries—the main competitors of the American Merchant Marine.

The United States Shipping board will deal in the end with abstract questions, the emergency fleet corporation will deal with operation and management of the government fleet in which billions have been invested, and in which the expense of upkeep to the taxpayer is now about fifty million dollars a year. The plan may fall as have the others, but it gives promise of starting in the right direction—at least it seems to have unanimous support here.

The United States Shipping board will deal in the end with abstract questions, the emergency fleet corporation will deal with operation and management of the government fleet in which billions have been invested, and in which the expense of upkeep to the taxpayer is now about fifty million dollars a year. The plan may fall as have the others, but it gives promise of starting in the right direction—at least it seems to have unanimous support here.

#### TOONEN ACCEPTS TAX APPOINTMENT

Leo Toonen, whose appointment as assessor of incomes for the Appleton district, which includes Outagamie and Waupaca counties, was announced Friday, has accepted the tax commission that will be delivered to Mexico. He told the commission that he will be ready to take over the work by Jan. 21.

Mr. Toonen now is accountant for the George Walter Brewing Co.

#### BLAST IN STOVE KNOCKS KENTUCKIAN'S EYE OUT

Hartsville, Ky.—Dynamite exploded in a piece of coal was thought to have caused an explosion on Thursday in an open grate at the home of Curtis Alford, 18, who has lost the sight of one eye and is suffering injury to the other as a result of being struck by coals from the force of the explosion. A 16 months old baby, sitting near the fire place, was blown bodily into an empty coal bucket.

#### Warmer Weather Promised As Mercury Hits 20 Below

Assurance of a rising temperature was a welcome feature of the weather forecast for Saturday which read: Fair Saturday night and Sunday; not so cold in west and south portion; slowly rising temperature.

The temperature Saturday morning was the lowest reported here this winter. The mercury gradually descended during night until 8 o'clock Saturday morning when it registered 20 degrees below zero on the Schuler thermometer. An hour earlier it registered 18 degrees below and was still 10 degrees below at 1 o'clock Saturday afternoon.

Thermometers Saturday morning registered all the way from 18 to 24 degrees below zero. The latter temperature was reported in the Fourth ward. Twenty-two degrees was reported at east College-ave and 23 degrees at west College-ave.

Observer W. P. Stewart of the government weather bureau of Milwaukee announced Friday morning that a great high pressure area, with temperatures ranging from zero to 20, below has spread over almost the entire country.

The center of the area is over Montana, where temperatures range from 20 to 23 below. For at least three days the temperatures will be zero or below in the morning, according to the observer.

#### COLDEST IN 12 YEARS

Milwaukee—Reports from over the

# DESERTS WIFE WITH NIECE AND SAVINGS MAN CLAIMING TO BE MEDICAL OFFICER LEAVES BRIDE OF TWO WEEKS

By Associated Press  
Trade Lake—Dr. Robert S. Frank, claiming to be an officer in the medical corps at Presidio, San Francisco, who disappeared with an 18-year-old niece of his bride of less than two weeks, took \$1,600 of his wife's savings, according to the statement of Cleve J. Strang, district attorney, who is investigating the case.

Dr. Frank, with his wife, who was Miss Julia Cedarquist, a nurse employed at a Seattle, Wash., hospital, deserted his bride on the farm home of her foster parent's near here shortly before Christmas. The same day, Frank dropped from sight. Miss Marian Christopheron, 18-year-old daughter of Mr. and Mrs. Louis Christopheron also disappeared.

Federal authorities at Madison are investigating the case in an effort to trace the pair. The last heard of them was a card received by Miss Christopheron's parents mailed in Kansas City, Mo. Among other things the card stated:

"Trade Lake is too darn small for me. I am sick of the place. I want to see the world. Tell Julia we are headed for Mexico and having a bully time."

Dr. Frank and Miss Christopheron met at a party on a farm which was given in honor of his bride.

#### SEEK MORE SHIPS FOR DRY SERVICE

Coolidge Authorizes Survey To Determine Number Of Vessels Available

By Associated Press  
Washington—Opposition of the budget bureau to the proposed appropriation of \$28,000,000 to provide the coast guard with a dry navy has caused President Coolidge to authorize a survey to determine whether existing government ships may not be available for such service.

Announcement that the president was willing to let Budget Director Lord see what he could do to save government funds in this connection was made at the White house, Friday, despite the fact the president approved the appropriation in his budget message to congress.

The treasury department's estimates, including \$20,000,000 for new ships and the remainder for personnel to man them, have never gone to the capitol, because of the opposition of Gen. Lord and navy officials who are certain that the navy has vessels that might be used to advantage.

#### BLAZE THREATENS PUBLISHING PLANT

By Associated Press  
New York—Fire threatened for a time to destroy the World building, in the heart of the Park row newspaper district, when a short circuit started a blaze in the mailing room on the ground floor Friday evening.

Flames and smoke shot up the elevator, ventilator and staircase shafts and firemen, unable to attack the flames directly with much effect, flooded the burning rooms by pouring water down these shafts from the upper stories. The blaze was under control in less than two hours.

#### WISCONSIN LAD NEAR DEATH FROM EXPOSURE

Chippewa Falls—As a result of a plunge into a deep snow bank on Friday, Harold Revore, 11, was near death Friday night. He was found by his sister, buried in the snow, head down, after he had gone on a toboggan ride. As a result of his experience, hemorrhage of the brain set in, causing paralysis of the left side.

His recovery was

# British Clergy Revive Ancient Morality Play

By Associated Press

London—A morality play in which the deity is impersonated by an actor robed in gold and wearing a gorgeous crown was presented Friday evening in St. Edwards church, Holbeck, a suburb of Leeds, before an audience of clergymen and newspaper men preparatory to its public production next week. The play is an English version of Hugo Von Hoffmansthal's "The Great World Theatre" the idea of which is taken from one of the Corpus Christi plays of the Spanish dramatist, Calderon.

The production at Holbeck was under the direction of Ellen Terry's daughter, Edith Craig. It was given with the approval and the blessing of the bishop of the diocese and other clergy, and proved deeply impressive. The proposal to present it in the church had been objected to in some quarters but it is believed that the reverent and profoundly religious atmosphere of Friday evening's performance will remove all hostility.

#### DEMOCRATS IN FIGHT AGAINST CUT IN SURTAX

### House Leaders Plan To Fight Reduction Of 25 Per Cent Maximum

Washington, D. C. — Democratic leaders of the house are preparing to launch a fight against a number of the important provisions of the Mellon tax bill, among them the proposal to reduce surtax rates to a maximum of 25 per cent on net incomes exceeding \$100,000.

Minority members of the ways and means committee are understood to have agreed that the maximum surtax rate should be 44 per cent of incomes in excess of \$92,000. Existing law fixes the maximum at 50 per cent of incomes exceeding \$70,000.

The administration bill has been the subject of a series of conferences by the eleven Democrats on the committee and Representative Garrett, the minority leader. The group is said to be united as to what changes should be made in the bill and is counting on the support of the insurgent Republicans.

Among other amendments favored by the Democrats is said to be one providing for more sweeping repeal of nuisance taxes.

#### BOY THROWS IODINE IN WOMEN'S FACES

Parsip, N. J. — Because he had seen the same thing done in the motion pictures, 14-year-old Schuyler Finch said Saturday he squirted iodine on the faces of girls and women here in the last few days while taking part in a big party. Young Finch, who was arrested Friday night after six women had complained of being burned, was arraigned Saturday morning and released in the custody of his mother for the juvenile court.

Finch said he had no other motive for throwing the iodine and that he did not know the victims.

#### YOUTH, HURT IN BLAST OF FIREWORKS, MAY DIE

Beloit — Raymond Kumbold, 16 years old, is in a hospital here with serious burns that may prove fatal, suffered when he was blown through the roof of a small building at the Lakeside Fireworks company at Roscoe, Ill., by an explosion that destroyed the building.

#### FORMER RICE LAKE PAIR ASPHYXIATED ON COAST

By Associated Press  
Rice Lake, Wis., has been received here of the sudden death of Mr. and Mrs. J. C. Signor, former residents of this city, at Compton, Calif., a suburb of Los Angeles. Death was due to asphyxiation by gas escaping from a stove evidently turned on by accident.

Mrs. Signor was alive when found by neighbors, but died soon afterward while Mr. Signor was dead when all reached him.

#### CAPTURE OF SILVER FOX STARTS TRAPPERS' RUSH

Conduway—Benni Pyle and Gustav Plummer, two Saxonville trappers, with their wolf dogs succeeded in driving a silver fox into his hole and captured him alive, selling the animal to the Cumberland Fox Farm Co., for \$55. After his capture every trapper in the county is now trailing foxes and the late snow makes trailing ideal.

#### Talking Pictures Are Successful In Trials

Cleveland—The phonofilm, a combination of radio and motion pictures, the invention of Dr. Lee DeForest, has been demonstrated successfully, according to those who have heard and witnessed the talking pictures.

By application of the phonofilm is the object of the inventor to produce talking pictures in which the characters speak. Dr. DeForest gave the following explanation of the process:

"In the studio, a motion picture is taken in the usual manner, but in addition to the camera lens which registers action, a microphone registers every sound made by the actor. A wire from the microphone passes through an audio amplifier to a gas filled tube called the phonofilm, located in the camera. The light from this tube fluctuates in exact accordance with the amplified telephonic currents which originated from the actor's lips.

"A very fine slit is located near the negative film through which those fluctuating light rays are registered on the sensitive emulsion of the negative film, which, when actual photographic sound waves, and being on the same film as the picture, insure a perfect synchronism at all times.

# Search Parties Continue Work On Pekin Ruins

## TAKES POISON AFTER POLICE TIP-OFF TALE

### One Of Chief Witnesses In Milwaukee City Detective Probe Tries Suicide

By Associated Press  
Milwaukee—Joseph Scherer, one of the chief witnesses to be heard in connection with the re-opening of a case against two city detectives, is recovering Saturday from the effects of poisoning which he drank late Friday after making an affidavit regarding the manner in which gambling places were advised of raids.

The case against Albert Koshier and Robert Riekkoff, city detectives who were recently cleared of charges of tipping off raids, will be opened, according to Mayor Hoan, who has expressed dissatisfaction with the manner in which the police and fire commissioner disposed of the charges against the two men.

Scherer in his affidavit declared he lost heavily at a dice game, and told of the manner in which the partners of the game were warned of the coming of the police, in each instance the raiders arriving after the game had been closed.

#### START 'MESSIAH' PRACTICE MONDAY

All Appleton Singers Invited To Join Community Chorus For Easter

Rehearsals will begin at 7:15 Monday evening at Lawrence Memorial chapel for the Easter musical festival at which the "Messiah" will be sung under direction of Dean Carl J. Waterman of Lawrence Conservatory of Music.

All Appleton singers who desire to join the community chorus sponsored by the majority of churches are invited to be present at the chapel at the above hour to enroll.

Rehearsals will be held each Monday until Easter. The early start was made because the oratorio is one that requires much practice and Dean Waterman does not wish to crowd the work in to the period just before Easter Sunday.

#### THREE SUSPECTS ARE AT LIBERTY ON BAIL

V. B. Janssen of Little Chute, who was arrested by Appleton police for the theft of more than \$200 committed in the Recreation hall on College-ave Dec. 28, was released on bail of \$1,000 by Judge A. M. Spencer in municipal court Friday. The trial will take place the latter part of January.

Lester Gellinger and Emil Walermann, a Dutch who were arrested by a sheriff's force last Saturday for the burglary of \$550 worth of clover seed in a Dale warehouse on Dec. 27, have been released on \$2,000 bonds. Walermann will fight the case and has engaged Keller and Keller to defend him.

#### VOCATIONAL CHIEFS MEET IN MILWAUKEE

Milwaukee — Vocational education directors of cities throughout the state were here Friday in annual conference, considering problems in common in vocational instruction. The conference was called by John B. Coleman of LaCrosse, president of the state association of vocational directors.

Approximately 45 vocational directors are members of the state association. George P. Hambrecht, state vocational director of Madison, was here in conference with the directors. He will present the vocational work and problems from the standpoint of the state.

#### GASOLINE SOLD FOR KEROSENE; MAN HURT

By Associated Press  
Manitowoc—Gasoline sold for kerosene was responsible for an explosion in the home of Alex Gerhard at St. Nazianz when oil was poured on the fire by Mr. Gerhard. The blast set fire to the interior of the house, but the flames were extinguished. Gerhard, hands and face were burned. Earlier in the day Mrs. Gerhard had filled a lamp with the oil, believing it to be kerosene, out the wick unexpectedly refused to ignite, which averted another disaster.

#### CITY OFFICIALS INSPECT NEW LAWE STREET BRIDGE

Mayor Henry Reuter and members of the common council were to assemble at the city hall at 1:30 Saturday afternoon to go with R. M. Connelly, city engineer, and W. H. Klyce, an engineer of the firm of Harrington, Howard & Ash, who drew the plans for the Lawest and Cherry bridges, and inspect the Lawest bridge which was completed by C. R. Meyer & Sons company of Oshkosh the latter part of December.

#### REPORT LOSS OF VESSEL WITH CREW OF SEVEN MEN

Corline, Newfoundland—The loss of the schooner Donald Silver with her crew of seven men last Thursday off Newfoundland, 100 miles east of here, was reported Saturday. Five of the bodies have been recovered. The ship was reported last seen on the day of the loss.

## HORN ON SPEAKER DOESN'T AMPLIFY SOUND FROM RADIO

Expert Declares Purpose Of  
Horn Is To Radiate Dia-  
phragm Vibrations

BY C. E. HANNA  
Westinghouse Electric & Manufacturing  
Co.

The popular conception of the function of a horn on either a loud speaker or a phonograph is erroneous. We hear that a horn "amplifies," or it "concentrates the sound," or it "amplifies," and many other explanations, all of which are vague and a horn of incorrect. It is true that a horn resonates at certain frequencies, and for that reason increases the amount of radiation at those frequencies. Any form of resonance, however, is undesirable because it is impossible to increase the amount of radiated energy uniformly at all frequencies within a wide range by this method. If a horn is not too distorted, its walls should be non-vibrating and its air column resonances, within the range of frequencies used, should be slight.

If we think of the term "amplification" as meaning the increasing of any form of response by supplying energy from another source, we see at once that a horn cannot amplify because it cannot supply energy. It should be evident, therefore, that a horn merely loads the diaphragm in such a way as to cause more sound energy to be radiated into the surrounding space from the diaphragm. A simple analogy is found in the electric motor. When the motor has no load connected to it, all the energy supplied is used up at losses in the machine. If a load is coupled to the motor, it draws more power from the line in order to supply energy to the load. When the load is high the efficiency is low as the load is increased the efficiency is raised. So it is with the diaphragm. Without a horn the efficiency is low and with a horn the efficiency is increased. The horn may be thought of as analogous to a lever which gives the diaphragm a better grip on the surrounding air. And so the term "radiator" more accurately described the action of a horn.

A good horn, therefore, is one which causes the diaphragm to radiate almost uniformly at all frequencies within the desired limits. This condition is more easily attained in a phonograph than in a loud speaker. In the phonograph the diaphragm is forced to follow the vibrations of the record except for the slight spring of the needle, while in the loud speaker the diaphragm is not impelled to follow the variations of current in the windings because there is no rigid connection between the two. In the phonograph it is necessary only that the horn shall radiate uniformly at different frequencies for a given root mean square velocity of the diaphragm. In the loud speaker the horn must fulfill this condition, and also help to cause the diaphragm to vibrate at a nearly uniform velocity when the same current at different frequencies is passed through the windings.

## ARTIST GOT AROUND U. S. REGULATIONS

Point to point communication through a broadcasting station is prohibited by regulation of the Department of Commerce. Many artists frequently apply to broadcasting stations for the opportunity to speak or sing in order that some relative at a distant point may hear their voice. A few of these are artists well worthy of a place on the program. Occasionally it is difficult to make them understand the Department of Commerce regulation.

One experienced radio artist who appeared at WEAU, succeeded in "putting one over." Having appeared frequently she was thoroughly familiar with the rule against point to point communication. A few hurried rules away there was a party of prominent newspaper writers to whom she wished to pay her compliments. She mentioned this to WEAU's announcer but added of course that she knew the regulation and would not say anything before the microphone which could be conducted as a violation of the rule. In the course of her program she sang a popular ballad, adding a verse of her own composition at the end. It cleverly fitted the music and mentioned every member of the party whom she wished to reach. But WEAU's staff will never be fooled that way again.

## RADIO BRINGS NEWS FROM NORTH POLE

Hartford, Conn.—Recent newspaper account prominently mentioning the Aerial League of America, to the effect that a mysterious invisible barrier has for months prevented the reception of radio signals from the Arctic expeditions of MacMillan and Amundsen, were vigorously denied here as far as the MacMillan expedition is concerned. J. E. Warner, secretary of the American Radio Relay League, the amateur radio telegraphers organization through which the MacMillan party keeps in touch with the world.

"Our contact with MacMillan is all we could want," Mr. Warner stated. Hundreds of our members in the United States, Canada and Alaska are regularly hearing the "howdoun" radio, and dozens of our stations in this country and Canada are in actual communication with her, handling hundreds of messages monthly and regularly receiving news of several thousand words for the press."

## TUNING IN ON RADIO

### PATENT WAR MAY FOLLOW MAKING OF NEW RADIO TUBES

Chicago Scientist Claims To Be  
Inventor Of Original Vacuum  
Tube

Chicago—A lively battle for honors and patent rights is expected to result from the announcement here of the invention of a new kind of radio vacuum tube by Dr. H. Preston Pratt.

The controversy may come soon after the manufacture of these tubes, planned to start in a month or so.

DR. H. PRESTON PRATT

and the contenders those who now own the Fleming and DeForest patents. Despite this probability, Dr. Pratt is going on with the plans for manufacture of his new tube because he says that it was he to whom nature should go for inventing the original vacuum tube.

Back in 1876, Dr. Pratt points out, he began experimental work in wireless telegraphy. From then until 1896, he tested every tube in existence, he says, and in 1897, he invented several types of tubes, one with the present three known elements—filament, grid and plate. Besides, Dr. Pratt claims other important radio inventions.

**AD ANTAGES**  
His latest product, the new tube, Dr. Pratt claims has these advantages:

1. No distortion, free from inductive and static disturbances, better reproductive capacity, greater volume, operates on plate voltages from 1 to 150, consumes 1.30th to an ampere of current, long distance easily tuned by filament control, more rigid and more durable than other tubes, signal strength proportionate to plate voltage.

The difference between the Pratt tube and others lies in the control of the electrons.

**DESCRIPTION**  
"The present-day tubes," explains Dr. Pratt, "fail to control material particles—electrons, atoms and molecules. There is a constant bombardment of these particles in the tube. They may be said to be running wild. My tube controls these particles absolutely. They not only are controlled, but they are amplified within the tube and are given a directional movement."

Here is Dr. Pratt's description of his tube.

"Let us assume that the source of electron energy—the filament—is located in the center of a tube in which a vacuum has been established. I place a reflecting device in the shape of a small cup on either side of this central spot, these reflecting surfaces facing each other. Interposed between these two cups, in addition to the spiral filament, is a spiral grid. The spiral plate, just the same as may be found in any three element tube, except for design and arrangement."

"The two reflecting surfaces concentrate the material particles in the center of the tube at the central spot, taking them away from the outer surface of the tube. From this center point these material particles complete the filament-plate circuit in the tube."

This action, Dr. Pratt holds, tends to increase the strength, activity and intensity of the electrical oscillations.

### PORTABLE SENDING SET IS DEvised

A short wave radio transmitting set which may be transported to the scene of church services, dramatic performances or lectures, as easily as a motion picture camera, is sent on news weekly assignments has been introduced as part of the broadcasting equipment of WGT, the Schenectady station of the General Electric company.

This set is not used to broadcast directly to the listener, but is a radio relay which conveys the program to the broadcasting station. This first radio transmission can not be tuned in on the average radio receiving set.

The portable transmitting set is conveyed to the hall or church from which it is desired to broadcast, an entertainment or sermon. Wire connection is established between microphone or pick up within the hall or church and the transmitter of the portable set outside. The wave length is too low to interfere with the usual receiving sets or broadcasting stations and it is also so low that there can be no interruption from spark transmitters by armatures.

### HOW TO TAKE CARE OF YOUR "A" BATTERY

1. See that the connections are clean and tight and it is advisable to scrape off the wire or terminal connections going out of the battery so that they are bright and will form a good contact.

2. See that there is no acid or water spilled upon the top of the battery which would cause voltage leakage between the cells. Keep the top of the battery dry.

3. Keep the plates covered with water at all times. The solution should come at least one-quarter inch over the top of the plates. Use only distilled water.

4. Do not permit the battery to stand completely discharged for any length of time. It should be recharged when hydrometer reading shows under 1.200. When fully charged hydrometer reading is between 1.280 and 1.300.

5. In using hydrometer see that the float does not cling to the side of the glass tube. When taking reading also see that the rubber bulb is fully expanded and not indented, as otherwise suction would permit of an incorrect reading being obtained.

6. Remember that all batteries when new are somewhat like a new automobile. They do not reach their full efficiency until they have been in service for a little while. A new battery will therefore, not give as long service on a single charge as it will after it has been recharged a few times.

### Fashes Out Of The Air

**PROGRAM FOR SUNDAY**  
(By Courtesy of Radio Digest)  
KFI, Los Angeles, (Pacific, 469.) 4 p. m. concert, Federated Church Musicians.

WWJ, Detroit, (Eastern, 517.) 7.30 p. m. church services; 8, Detroit News orchestra.

### LEAD-IN FROM AERIAL MUST BE FREE OF CONTACT

It is always a good practice in bringing a lead-in into the house not to let it touch anything. If the lead-in touches any metal some of the signal strength will be absorbed. In some cases where the lead-in touches wood there is not much difference in the signals; however, when it rains the wood has the same effect as a metal object.

More than 150 radio broadcasting stations in the United States are now sending weather bureau reports, principally for the benefit of farmers.

### NOTICE

The annual meeting of the stockholders of the Appleton Woolen Mills will be held at the office, Thursday, Jan. 10, at 2 o'clock.  
D. V. N. HARWOOD, Secretary adv.

## RADIO WAVES GET INTO EARTH CUTS

Explorers And Geologists Equip  
Selves With Radio  
Outfits

Radio equipment for use on land and sea is taking its place with the essential instruments of precision used in navigation, surveying and recording of time. Future navigators and surveyors will no more think of going on an expedition trip without a radio set, than those of past years would have gone without compasses and chronometers.

Especially when making explorations in uninhabited country, where other means of communication are lacking, all government engineers and scientists will soon carry radio sets. Recently a group of longitude surveyors of the Coast and Geodetic Survey, operating in Alaska, was radio equipped while another field party from the Geological Survey took a receding set down the Colorado river.

Both parties got excellent reception. Col. C. H. Burdette, of the Geological Survey, who recently returned to Washington after the successful 150 mile boat trip down the Colorado, will shortly refute claims advanced about a year ago that radio waves would not penetrate the deep cuts in the earth's surface. The forthcoming announcement of Col. Burdette will be based upon actual experiments with a special portable three-tube Armstrong regenerative hook-up used frequently all the way along the river bed, even in the Canyon at Bright Angel Trail, nearly a mile below the rim.

Broadcasts were received in the deep reaches of the Canyon regularly from Los Angeles, Salt Lake City, San Francisco and once from Colorado Springs. The set proved entertaining for the men, bringing concerts, news, baseball scores, etc., daily. News of President Harding's death and the Japanese earthquake came over the radio.

### PUBLIC SCHOOLS REOPEN MONDAY AFTER VACATION

The grade and high schools will begin classes again on Monday morning after the two weeks holiday vacation. The opening of the high school will be followed on Jan. 15 by the final examinations and the beginning of a new semester.

Many of the teachers have returned to Appleton from their vacations in order to get their work in shape for the first classes. Several teachers remained in Appleton throughout the holiday season, and most of these have spent part of their time at the high school.

**Postpone Meeting**  
The Appleton Postoffice association meeting, which was scheduled to be held at the postoffice on Saturday evening, has been postponed one week on account of the cold weather. Owing to the poor roads and extreme cold, rural carriers are not able to return from their routes until late and would therefore miss the meeting.

## OBSERVATION WORK FOR YOUNG MENTORS

College Students Given Opportunity To Watch Teachers  
At Work In H. S.

Lawrence college students who intend to teach school will have an opportunity to observe the work of ten of the best teachers in Appleton high school during the next semester. Arrangement has been made for the work to be considered as a regular college course in the education department of which Dr. J. L. Munsell is head. Dr. Munsell has been cooperating with Lee C. Rasey, principal of Appleton high school, to make the course possible.

The prospective teachers will do no practice teaching under the new arrangement but will observe the teaching of the regular high school teachers every day for several weeks. At intervals, the students may change to the class of other teachers thus getting a variety of ideas of how best to handle the school work. Each college student will be privileged to take part in the recreation work of the class and each teacher who has observers in her classes will hold weekly conferences with them. In exchange for her time and help in their work the college students will mark papers and assist with the routine of the class teaching.

This class is similar to the plan in

## Taking America Off Its Feet!

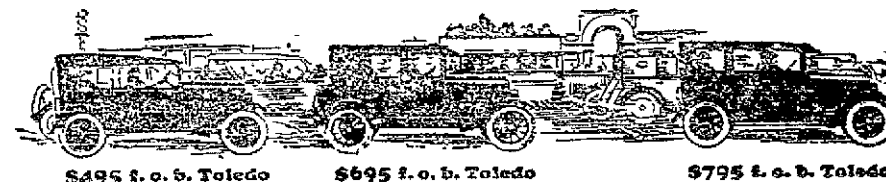

Overland Success is the Talk of the Country

The year just ended has been the greatest of all the fifteen years of Overland history. A great year made by great cars—the greatest Overlands ever built. Greatest in looks, power, action, comfort—and money's worth?

Look at the new Overland Champion, for instance. It brings a quality closed car with features and utilities hitherto unheard of within reach of every purse. America's first all-

purpose car—conceded to be the most useful motor car on wheels.

The Champion and all Overland models have the bigger Overland engine—brute power with extreme economy. Leaders in economy—leaders on the road—leaders in the many satisfactions they bring to owners. See them. Sit in them. Ask for a sample of their performance.

## OVER 90% OF ONE MILLION STILL IN SERVICE

Since delivering their first car, early in December, 1914, Dodge Brothers have manufactured and sold one million motor vehicles.

Over 90% of all these cars are still in active service.

This striking fact stands alone—a unique and overwhelming tribute to the principles and methods responsible for a product of such enduring worth.

## Music Board Gives Party To Quartet

Members Of Methodist Church Music Committee Entertain At Dinner

The music committee of the Methodist church entertained the church quartet and their husbands and wives at dinner Friday evening at Conway hotel. The program consisted of several musical numbers by members of the quartet after which those present visited W. H. Nolan's store where they listened to a radio concert.

The group consisted of Mr. and Mrs. J. T. Quilman, Mr. and Mrs. W. H. Nolan, Mr. and Mrs. Carl McKee, Mr. and Mrs. George Nixon, Dr. and Mrs. J. A. Holmes, H. G. Saecker, F. J. Saecker, Mr. and Mrs. H. E. Heckert and Mrs. L. A. Brigham.

## Womans Club Has Class In Food Picking

Any women who are interested in studying food selection either intensively or in a general way still have an opportunity to join the class conducted for Appleton Women's club by Miss Sophie Schaefer. The Red Cross class is being attended by several housewives who are anxious to learn about better meal planning and food preparations.

Two of this Red Cross class have gone into the work more intensively and are to take up the University extension course in food selection which has just been revised and brought up to date. Anyone who is interested in taking this correspondence course may get in touch with Miss Schaefer either through the Appleton Women's club or at Hotel Appleton.

## CLUB MEETINGS

Mrs. A. E. Adsit, Prospect-st., is to entertain the Browning club at her home next Wednesday afternoon. The hostess is in charge of the program.

The Monday club will meet at the home of Mrs. Hugh Corbett, 573 Pacific, on Monday afternoon. Mrs. Olin Mead will have charge of the program, which is on "Nobel and Nobel Prizes."

Mrs. James Wood will be hostess to the Clio club at her home 660 Washington-st. Monday evening. Current events for December are to be reviewed at this meeting.

Comrades Robert Law, Peter Sherin and Edward Hart of Neenah, attended the meeting of the George D. Eggleston post, Grand Army of the Republic in Odd Fellow hall Friday afternoon. Because all of the old officers of the Appleton post have been re-elected, the usual installation ceremony held at the first of the year will not take place. The post and its guests were entertained at the Women's Relief Corps auxiliary's supper in the evening.

St. Elizabeth club will have its regular meeting at 3 o'clock Monday afternoon in the Catholic home on Washington-st. Routine business is to be discussed at this meeting.

Miss Edna Rohloff was elected president of the March club at a meeting Friday night at the home of Miss Loreta Braemer, Bates-st. Miss Edna Knoke was chosen secretary-treasurer. Plans for a slumber party to be held at the home of the Misses Edna and Edna Knoke, Linwood-ave. on Jan. 19. The evening was spent in sewing after the business meeting.

J. T. Reeve circle, Ladies of the Grand Army of the Republic, will have its installation at the next meeting, which is on Jan. 13. The circle had planned to install on Friday night, but because the installing officer, Mrs. E. P. Miller of Madison, was unable to get here, the ceremony has been postponed.

The Tourists club will meet Monday afternoon at the home of Mrs. F. P. Young, 737 Kimball-st. Mrs. Frank Holbrook has charge of the program, which is one "Garibaldi."

The Clio club will meet Monday evening, Jan. 7, with Mrs. James A. Wood, 660 Washington-st. The hour designated is 7:30.

The Kah Lo Ka club held a meeting at the Y. M. C. A. Thursday evening. Harry Parton gave a talk on personality, after which games and stunts were enjoyed. Members of the club now have the use of the gymnasium during the period between 8:15 and 9:15.

## SISTER AWARDED \$5,400 FOR SERVICE TO DOCTOR

Manitowish—Seventy-five dollars a month for a period of six years, a total of \$5,400, has been awarded Miss Mary O'Brien against the estate of her deceased brother, Dr. O'Brien, St. Nazianz.

Miss O'Brien, in her claim, asked \$12,500. For many years she was housekeeper and office clerk for her brother, the claim recites for which she never received remuneration, except her board and lodging.

In making the award, Judge Chmielek, in probate court, held that the statutes of limitations prevented the woman from recovering more than six years' pay. Originally she asked for \$50 a month but then changed it to \$100 a month. The court compromised by allowing \$75 a month. Dr. O'Brien died in 1921. His sister is now a resident of Minneapolis.

## PARTIES

The Big Five has made arrangements for a masquerade dancing party to be given in Armory G Jan. 15. Twenty-five prizes will be awarded to winners in the costume contest. Gih Horst orchestra is to furnish the music.

The first open dancing party given by the K. C. Smiles of the Kimberly-Clark Co. will be held next Thursday evening in the new company clubhouse at Kimberly. Mellorimba orchestra is to furnish the music.

Jerry White and Gilbert Stevens of Appleton and Theodore Gilbert, Stewart Thompson and Van Pinkerton of Neenah entertained at a dancing party in the Valley Inn Thursday evening. About 20 couples were guests. Gih Horst orchestra furnished the music.

Kappa Delta sorority of Lawrence college will entertain the members and alumni at a dinner dance at the Conway hotel Saturday evening. Music will be furnished by the Gih Horst orchestra. Alumni guests include the Misses Anne Doherty, Estelle Hagen, Margaret Luce and Mrs. Roy Hauer. Mr. and Mrs. Johns and Dr. and Mrs. Bolton will be chaperones.

With registration completed and classes again in full swing, social programs at Lawrence college are being made. The Delta Gamma sorority will entertain at a dancing party on January 12. Alpha Gamma sorority on Jan. 26. Phi Phi sorority on Jan. 9, and Phi Mu sorority on Jan. 19.

Miss Genevieve Jentz, entertained the choir of St. Matthews Lutheran church at her home, 1221 College-ave. Friday evening. Music and games were enjoyed and prizes were awarded to the Rev. T. H. C. Froehle, Mr. Froehle, Miss Ida Manteufel, Miss Edna Schultz and Herman Jahnke.

A small group of girls was entertained at the home of Miss Alvera Nehls, 872 Morrison-st. Friday evening. Prizes at games were won by Miss Grace Hannagan, Miss Phyllis Ward and Miss Rebecca Benyas.

## Install K. T. Officers For 6-Nonth Term

Officers were installed by Appleton commandery, Knights Templar, at the regular meeting at Masonic hall Friday evening. The same officers as last year will serve until the election in June, which will be the time of change under the new rules.

The officers are: Commander, W. B. Basing; generalissimo, Olin Meade; captain general, Edward Gorroo; senior counselor, William Rooks; junior counselor, John Lappen; recorder, Herman Wild; hagen; warden, W. W. Jacquot; standard bearer, W. D. Schuster; sword bearer, Carlton Saecker.

## LODGE NEWS

Knights of Columbus are planning two parties for the month of January. One is to be a card party and social scheduled for next Thursday night in the lodge rooms in the Catholic home. Bridge, schafkopf and mah jongg are to be played, and this will be followed by dancing. On Jan. 30, counsils from New London, Kaniku-na, Neenah and Menasha are to be entertained at a dancing party in the Elks club. Gih Horst orchestra has been engaged to furnish the music.

Konemik and Daborah Nebakah lodges are to have a joint installation at 8 o'clock Monday night in Odd Fellow hall. Richard Van Wyke is to be installing officer for Konemik lodge and Mrs. George Sutherland will install the Nebakahs' officers. A social hour will follow the ceremony.

Women's Catholic Order of Foresters will hold its regular meeting at 7:30 Wednesday evening in the Catholic home. After the brief business meeting, bridge, schafkopf and dice will be played.

An open card party will be held after the regular meeting of Royal Neighbors in South Masonic hall Monday evening. The meeting will start at 7:30 and the card party is scheduled for 8 o'clock. Schafkopf, dice and bridge are to be played.

Eight tables of schafkopf were played at the regular meeting of Ladies auxiliary of Eagles Friday afternoon in Eagle hall. Mrs. Edward Tornow, Mrs. John Duval and Mrs. Charles Freiburg were the hostesses. Prizes were won by Mrs. William Gens, Mrs. Peter Rademacher and Mrs. Tornow.

## JAPANESE STUDENT IS ILL IN HOSPITAL HERE

Kiyosha Ota, 23, of Osaka, Japan, student at Lawrence college, is ill in St. Elizabeth hospital. He was taken sick on Dec. 11.

Mr. Ota's brother, a physician in Japan, has been called, and it is expected that he will send a famous Japanese remedy to his brother. The young man formerly was a member of the Kwansai baseball league of Japan and played against the Chicago White Sox while on their Oriental tour. His father is president of a Japanese railroad company.

Horses in River—A team of horses belonging to Lutz Ice company broke through the ice Thursday near the company's ice house while engaged in removing snow from a portion of the river. The accident occurred near shore where the water was comparatively shallow and both animals were pulled out without serious results. The team is used for delivery purposes.

The misses Marie and Catherine Beutiker of De Pere visited at the home of Mr. and Mrs. P. Beutiker of Little Chute last Sunday.

## Neighbors And Woodmen Seat New Officers

The local chapter of the Modern Woodmen of America and Royal Neighbors held a joint installation of their new officers Friday evening in Rhine lodge hall. This was followed by a program and dancing party.

The meeting was called to order by Henry Kriek of the Woodmen's organization, who turned the gavel over to Mrs. Paul Rath, past oracle of the Royal Neighbors. Mrs. Clara Hoyt of Antigo acted as installing officer for the women's organization, while Mrs. Edwin Lahman of the local chapter acted as ceremonial marshal. The ceremony was opened with a prayer by Mrs. Joseph Schmirler, local chancellor.

The officers installed were: Oracles, Mrs. George Hogreiver; past oracle, Mrs. Paul Roth; vice oracle, Mrs. John Luaders; chancellor, Mrs. Joseph Schmirler; recorder, Mrs. J. Modor; receiver, Mrs. Dora Hagen; marshal, Mrs. A. Grabfelder; inner sentinel, Mrs. A. Kapp; outer sentinel, Mrs. J. Bouslon; physician, Dr. H. E. Ellis; worth, Dr. F. P. Doherty; musician, Miss Laura Luaders; manager for three years, Mrs. L. Lohman; flag bearer, Mrs. F. Ackerman; faith, Mrs. Clarence Kasten; courage, Mrs. J. Hecker; modesty, Mrs. Fredericks; unselfishness, Miss Evelyn Bries; endurance, Miss Ethel Hager.

The Woodmen then installed their officers, who were: Council, Henry Kriek; escort, John Luaders; sentry, Leo Schwandt; watchman, C. C. Carpenter; trustee, Charles Wlemandt; night escort, H. C. Carpenter; banker, H. A. Rath; clerk, J. A. Merkell; worthy advisor, Walter Schmidt. Polzin's String quartet played several selections as a part of the program that followed. Judge A. M. Spencer told of the pioneer times and of the charter members and Mrs. Clara Hoyt gave a short talk about her work. Dancing followed the program.

## OFFICERS WILL SPEAK AT MEETING OF C. E.

Sunday's program of the Evangelical League of Christian Endeavor at 8:30 in the evening at Emmanuel church will be in charge of the executive committee. The topic will be "Doing Better Still," and will include a minute talks by officers and committee chairmen. Special music also will be provided.

The league has appointed its standing committees for the year and has begun its work under the new officers. A business meeting is to be held at 8 o'clock Monday evening at the church.

## DON'T CALL COURTHOUSE TO LEARN ABOUT TAXES

Great confusion seems to exist among a number of tax payers as to the place where taxes are to be paid. Many personal and telephone calls have been received at the office of Miss Marie Ziegenhagen, county treasurer, from persons who desire to know the amount of their taxes. Miss Ziegenhagen announces that she knows nothing whatever of the amounts of individual taxes until they have been turned over to her as delinquent. In some states most taxes are paid to the county treasurer instead of the local treasurer, but this procedure has not been introduced in Wisconsin.

## CHURCH SOCIETIES

Louis Wurt was elected delegate to the annual Wisconsin conference of Evangelical churches held the latter part of April in Menominee, Mich. His election took place at the quarterly meeting of the Emmanuel Evangelical church at the church Friday night. The Rev. H. A. Bernhardt is to be the other delegate.

The vestry of All Saints church will meet at 7:30 Monday evening at the home of the Rev. P. O. Keicher, 629 Drew-st. Important business matters are to be acted upon.

The annual meeting of Sacred Heart society, previously announced for Sunday afternoon, owing to a misunderstanding of a member of the society, will not be held until a week from Sunday, or Jan. 13.

"Lives Worth Living." Mrs. Peabody's book, will be used for a course of study by the Live Wire class of Emmanuel Evangelical Sunday school. The class has held its annual meeting and has elected as officers: Gladys Rabehl, president; Mildred Gehring, vice president; Gladys Stolt, secretary; Gladys Schroeder, treasurer.

Regular meetings of the junior Christian Endeavor society of Emmanuel Evangelical church will be resumed at 10 o'clock Sunday morning. Gladys Albrecht and Clifford Selig will be in charge. The society suspended meetings for the Christmas holidays.

The Ladies Aid society of Reformed church selected Mrs. Peter Ryser, president at the annual meeting on Thursday at the home of Mrs. August Sausburger, 966 Appleton-st. Other officers selected are Mrs. Carl Wickes, berg, vice president; Mrs. Edward Nuss, secretary; Mrs. Charles Hartz-worm, treasurer.

## WERNER ORDERED TO GRANT VENUE CHANGE

Judge Edgar V. Werner, Shawano, judge of the Tenth circuit, has been ordered by the supreme court of Wisconsin to grant a change of venue from Shawano to Lincoln in the case of Martin Innerbauer vs. Oelhofen-Mondeau Co., or to show cause before the Supreme court on Jan. 15 why this change of venue is not granted. This order of the Supreme court is unusual and the outcome is being watched with great interest by attorneys.

The title of the case in which the alternative writ of mandamus was issued is the State of Wisconsin ex rel the Oelhofen-Mondeau company against Edgar V. Werner. The petition on which the supreme court writ was based was filed by George M. Sheldon, an attorney of Tomahawk, Wisconsin, representing the Oelhofen-Mondeau company, and it is claimed in the petition that the Oelhofen-Mondeau company is entitled as a matter of right to the change of venue denied by Judge Werner.

Mr. and Mrs. W. F. Saecker returned Friday night from Chippewa Falls, where they attended a concert given by their daughter and son-in-law, Mr. and Mrs. Walter Pfitzner. The concert was held at the Elks club under the auspices of the Women's club. August Brandt and Walter Pham were Black Creek visitors Friday.

## Veterans See Installation Of W.R.C. Officers

Women's Relief Corps auxiliary of the Grand Army of the Republic served about 150 persons at a banquet at 6:30 Friday night in Odd Fellow hall, after which installation of the auxiliary's new officers took place.

Those installed were: President, Mrs. Nellie Ovtit; senior vice president, Mrs. Carrie Sutherland; junior vice president, Mrs. Dorotia Lohrenz; secretary, Mrs. Emma Brown; treasurer, Mrs. Emma Loe; chaplain, Mrs. Emma Struck; conductor, Mrs. Amanda Pfeil; assistant conductor, Mrs. Carrie Beckstroh; guard, Mrs. Cora Hier; assistant guard, Mrs. Hoffman; patriotic instructor, Mrs. Viola Fox; press correspondent, Mrs. Rose Mor-ris; musician, Mrs. Alice Packard; ent-or bearers, Mrs. Alice Ralph, Mrs. Kathleen Poole, Mrs. Stella Sharps and Mrs. Lillian Trentlage. Comrade Robert Law of Neenah acted as installing officer.

Members of the George D. Eggleston post, Grand Army of the Republic, with members of United Spanish War veterans, who lately have been accepted as honorary members of the Grand Army of the Republic, were in attendance.

## CARD PARTIES

Mark Catlin and Daniel T. Stein-berg won the prizes at the weekly bridge tournament of the Elks lodge at the clubhouse Friday evening. The tournament is drawing to a close and competition has become keen for the grand prize.

## MARRIAGE LICENSES

Application for license to marry has been made by Hugo Munkey and Mary Allen, both of Shiocton.

## MRS. YOUNG ENTHUSIASTIC

Cannot Praise Lydia E. Pinkham's Vegetable Compound Enough. Sick Women Read This Letter

Charleston, S. C.—"I was completely run-down and not able to do anything but my housework. I just dragged myself around and did not have energy enough to get up when I sat down. I read advertisements of Lydia E. Pinkham's Vegetable Compound in your books and learned about it. I got benefit from the very first bottle. I continued to take it for some time, and now I am doing all my own work, even washing and ironing, and never felt better in my life. I tell all my friends that the change in my health is due to but one thing and that is Lydia E. Pinkham's Vegetable Compound. I cannot praise it enough."—Mrs. ANNIE YOUNG, 16 Amherst St., Charleston, S. C.

The reason for such a letter from Mrs. Young is apparent. She got well and is grateful. Recently a nationwide canvass of women purchasers of Lydia E. Pinkham's Vegetable Compound was made, and 99 out of 100 reported that they received benefit from taking it.

Because the Vegetable Compound has been helping other women is reason why it should help you.

## Social St. Joseph Hall

EXCLUSIVE DAMP WASH SERVICE

No More Worry Or Fuss—Every Day Is Laundry Day

24 HOUR SERVICE

24 Hours After We Receive Your Bundle it Will Be Delivered to You All Washed and Packed in a Clean White Bag.

AND IT ONLY COSTS 5c PER LB.

When you are using our regular Damp Wash service you may be assured that your work will be done, really better than you would do it yourself. Our business is washing clothes, all of our time is devoted to the study of better and more efficient methods of doing this work. We have purchased modern machinery, that will wash everything, with less wear and tear than it would get in your own home. Special processes are used for Linen, Silks, Artificial Silks, Wool and Cotton. Each piece must be washed in an entirely different manner.

When you figure the cost of Damp Wash at 5 cents pound against the cost of doing your own laundry work, you will soon find it is much cheaper, to have us do it, than to wash your own clothes. Figure the cost of soap, water, heat, labor, investment in machinery that is necessary to do the work and you will then find how much it really costs you. And besides this, think of the cost to yourself, of all the muss and fuss that you must go to in cleaning up and doing the work.

## DEPOSITS MADE AT KIMBERLY BANK TOTAL MILLION

Officers Are Re-elected At Annual Meeting Of Village Bank

Special to Post-Crescent—Kimberly.—The annual stockholders' meeting of the Kimberly State Bank was held Thursday evening in the clubhouse. An excellent report was given of the banking business done during the last year and officers were elected. Checking accounts deposited in the last year amounted to more than a million dollars according to the report. The officers elected were the same as those of last year. R. S. Powell, president; S. P. Shattuck, vice president; L. C. Clark, cashier; J. C. Stuyvenberg, assistant cashier.

Holy Name society closes a week's drive for new members Sunday, when the candidates will be received into the society at 7:30 mass, which will be a solemn high mass. All members of this society, both senior and junior, will receive holy communion during that mass. Sunday is the feast of the Holy Name which is the patron feast of the society and also of the parish.

Mrs. Henry Van Mar was taken to a Green Bay hospital to submit to an operation for ectopic.

Mr. and Mrs. Henry Van Cuyk are both ill with pneumonia.

The gymnasium of Kimberly clubhouse is now complete and ready for indoor games. All equipment necessary for different kinds of games is in place and lights and windows are guarded by screens.

About 110 couples attended the dancing party given by the Athletic club Wednesday evening in the clubhouse. Another one will be given by the girls club on Thursday Jan. 10.

Mr. Armstrong of Niagara was here Friday to attend the meeting of the Kimberly-Cark equalization committee.

At the indoor baseball game played between the Married Ladies and the Girls club last Thursday in the clubhouse, the girls beat the Married Ladies 25 to 1.

Next Wednesday, Jan. 9, the Merchants of Hortonville will play the Kimberly unit team a double game of basketball.

## TRANSFER FARM TO NEW DISTRICT

Officials Grant Request Of Thomas McCormick To Change School District

Seymour.—At a joint meeting of the town boards of Seymour and Onida, and officers of Cherry Hill school, Seymour, and Pine Grove school, Onida, on Saturday of last week, an agreement was reached by which the farm of Thomas McCormick was transferred from Pine Grove to Cherry Hill district. This was done at the request of Mr. McCormick. Union services will be held by the Methodist and Congregational churches at the latter building Sunday evening. A young people's meeting will be held at 6:45 and evening worship at 7:30.

Mrs. Berge of Valders is visiting her son Clifford and family. Norman Reed is at Tomahawk visiting his brother.

Miss Ruth Peterson of Allenville, returned Tuesday to resume her teaching at Sunny Nook school.

Mrs. Chris Roepcke and daughter Crystal of Rhineland, returned home Wednesday after spending several days at the home of Mr. and Mrs. Fred Roepcke.

Mr. and Mrs. Levi Paulson entered a group of young people Wednesday night in honor of Mr. Paulson's sister, friend.

Mrs. E. C. Steveder returned to her home in Green Bay Thursday after spending a week with relatives here.

Mr. and Mrs. Edwin Reimer have gone to Chicago for the winter.

Mrs. L. H. White left Thursday morning for California, where she expects to spend the winter with relatives.

The Women's Relief corps will meet at the home of Mrs. Peter Tubbs for dinner Thursday, Jan. 10.

Mrs. W. C. Stadler of Milwaukee is staying here parents, Mr. and Mrs. O. Chamberlain.

Ernest Krause of Antigo is visiting his parents here.

Treasurers of adjoining towns are at Seymour banks each Monday to accommodate taxpayers.

Leona Wiedeman has returned to Lawrence college, Appleton, to resume her studies.

M. H. Jackson, lecturer, will appear here Friday night to fulfill another number of the high school lecture course.

Johnny Severson, 8-year-old daughter of Mr. and Mrs. F. Severson, is very ill with pneumonia at her home.

Fern Huth, 3-year-old daughter of Mr. and Mrs. J. W. Huth, is very ill with pneumonia.

Leonard, oldest son of Mr. and Mrs. Chris Benz, is confined to his bed with influenza.

Miss Gertrude Krause returned to Hunting after spending the holidays with her parents, Mr. and Mrs. Henry Krause, near 3.

Bernard Hansen left Wednesday for Milwaukee to attend school.

Elmer Johnson returned to Madison Wednesday to resume his studies at the University of Wisconsin.

## HOCKEY EQUIPMENT FAILS TO ARRIVE; MAY CALL OFF GAME

Kaukauna, Without Practice, Schedule To Tackle Neenah Squad

Kaukauna.—There still is a question whether the opening hockey game of the season will be played with Neenah here Sunday afternoon. Attempts have been directed this week toward building an ice rink on the ball grounds and it is expected that the rink will be in readiness. Equipment, however, which had been ordered for the team, had not arrived Friday evening and unless it comes Saturday and the probable game will be postponed. If that is necessary, officials of the local team will notify the other team in time.

The hockey game is new in Kaukauna and there is no way of forecasting how the Electric City team will fare with the Neenah aggregation, which is understood, played several games last season. Officials say that to play the game is the quickest way to learn it and the Kaukauna skaters can be depended upon to do their best.

The management has decided not to charge admission to the game. Fans who will be interested enough to turn out will be asked to give what they desire when the hat is passed around. It is estimated that about \$20 a game will cover expenses.

Although no practice has been held, a group of skaters has been lined up and the team probably will be picked from the following men: William Haas, Anton Reith, Ray McGarity, Lester Benzol, Pat Pahl, Gordon Mulholland, Carl and Otto Runte, "Conney" Eiler, Leo Spindler, Carl Emerson, Edward Haas, Kenneth O'Doyle and Joseph Schamer.

## Kaukauna Churches

Kaukauna.—Brokaw Methodist, Rev. W. P. Hulen, pastor—Sunday school, 9:30; lesson: "A Chosen Leader and a Chosen Land." Morning worship, 10:30, theme: "The Jesus of Life." Communion service and reception of members. Epworth league, 6:45, topic: "The Morning Watch." W. P. Hulen, Evening worship, 7:30, theme: "Beginning the New Year."

First Congregational, Rev. Daniel Woodward, pastor—Sunday school, 10 o'clock; morning worship, 11 o'clock, theme: "The pre-existent and changeless Christ." Christian Endeavor meeting, 6:45; evening service, 7:30, subject: "The American Public School System." The Greatest True Nation Builder in Democracy, Not Excluding Colleges, Universities and Church Schools.

Trinity Evangelical Lutheran, Rev. Paul Oehelt, pastor—Sunday school, 9:30; English service, 9:30; German service, 10:30.

Immanuel Reformed—Rev. E. L. Wortman, pastor—Sunday school 9:30; English service, 9:30; German service, 10:30, Christian Endeavor 6:30.

Marriage Of Girl Learned After Her Death

Kaukauna.—Fegner Jaeger, 17-year-old daughter of Mr. and Mrs. Joseph Jaeger, who died Wednesday, was married to William Steffen, Jr., of Kaukauna, at Menominee, Mich., in July of 1923, it was learned on Saturday. The death certificate, however, gave the young woman's name as Miss Frances Jaeger.

Puneral services were held at 3 o'clock Friday morning in Holy Cross church. Burial was in the family lot in Freedom cemetery. The young lady is survived by her parents, Mr. and Mrs. Joseph Jaeger, one sister, Mary, six brothers, Peter, Henry, Gilbert, Alloysius, Clarence and John. Her brother Joseph was killed in July at Marion when he was caught in a saw-er chain.

FREEING YOUNG PEOPLE GIVING PLAY ON SATURDAY

Special to Post-Crescent—Freedom.—Some of the young people of St. Nicholas parish have practiced a play and will present it Sunday evening in the parish hall.

Mr. and Mrs. Harry Heringer and family of Combined Locks were guests of John Green and family.

Miss Marion Conrad returned home Tuesday to recuperate after an operation.

Joseph Conrad, son John, Albert Sandberg and Vincent Van Denberg left Saturday for Hollister where they are employed as loggers.

Catherine, daughter of Mr. and Mrs. Patrick J. Garvey, who was seriously ill with pleuro-pneumonia, is slowly recovering.

Miss Myrta Kieffer, who is a nurse at Fond du Lac hospital, is spending the holidays here with her parents, Mr. and Mrs. Walter Kieffer.

Nick Nardoff of Milwaukee, spent New Year's day here with his parents.

Sylvester Coffey has left for Milwaukee to continue his medical course at Marquette university.

Mr. Thomas Murphy and daughter Janet of Appleton were guests of Walter Kieffer and family New Year's day.

## PLAN CAMPAIGN FOR B. & L. SAVERS

Drive Will Open Jan. 14 At New London And Continue For Five Days

New London.—Plans for an active soliciting campaign were formulated at a meeting of the board of directors of the Building and Loan association on Wednesday evening. The drive for enrolling installment stock subscribers will begin on Monday, Jan. 14 and close on Saturday, Jan. 19. Teams of solicitors will canvass the working men in each of the factories and other teams will visit men in their places of business.

A special communion service will be held at the Congregational church Sunday morning, beginning at 10:50. Instead of 11 o'clock, the usual hour. Ten new members will be received into church, and the choir will render special music. Dr. J. W. Wilson of Appleton, district superintendent of the Congregational church, will deliver an address on the subject, "The Advancing Church."

## VOLCANO SUPPLIES STEAM HEAT ON HAWAIIAN ISLAND

By Associated Press—Hilo, Island of Hawaii.—Steam flowing everlastingly from a fissure in the side of the volcano of Kilauea is now being used to heat the office building of the Hawaiian National Park Commission.

The vapor leaves the ground at 120 degrees and is guided through conduits a distance of 40 feet to the building. In the winter time it easily keeps the offices at a uniform temperature of 70 degrees.

## County Deaths

YAN DENBERG FUNERAL.—The funeral of Mrs. John C. Van Denberg which was to take place Monday was postponed until Wednesday on account of the snowstorm Monday. It took place Wednesday from St. Nicholas church. The bearers were six cousins. Many relatives from out of town attended the funeral.

## GITTER FUNERAL

Hortonville.—The funeral of Albert Gitter, 27, son of Anton Gitter, who died at St. Elizabeth hospital Monday evening, was held at the S. S. Peter and Paul church at 10:30 Thursday. The Rev. T. Kolbe was in charge. Mr. Gitter was injured in an auto accident five weeks ago. The bearers were Vernon Klein, Joseph Hoffman, James Miller, Raymond Ritzer, Alfred Klein and Myron Steffen. Hortonville veterans of the world war attended in a body, and also a group of soldiers from Tigerton where deceased had been in business.

Among the nonresident attendants at the funeral were: Lothar, Louis and George Gitter, Milwaukee; Mrs. Peter (Gloudeau) and son, Little Chute; Charles Moder, Sr., and Charles Moder, Jr., Appleton; George Gitter, New London; Mr. and Mrs. Otto Dahlmann, Frank, Anne and Margaret Lamb, and Mr. and Mrs. Stearns of Tigerton.

Taps was sounded at the grave by Dr. M. E. Ridout.

Mr. Gitter entered service in the World war in 1917 and served until the close.

duits a distance of 40 feet to the building. In the winter time it easily keeps the offices at a uniform temperature of 70 degrees.

## HOLD SURPRISE PARTY FOR BRASSERS FAMILY

Special to Post-Crescent—Little Chute.—Mr. and Mrs. Martin Brassers were pleasantly surprised at their home by a group of friends Monday evening. Those present were: Mr. and Mrs. John Van Eperon, Jr., Mrs. John Van Eperon, Sr., Mr. and Mrs. John Peters, Mr. and Mrs. Arnold Hansen, Theodore Van Der Putten, Mr. and Mrs. Henry Guerden, Mrs. Walter Van Eperon, Mr. and Mrs. Henry Van Den Boogart, John and Max Van Den Boogart, all of this village; Mr. and Mrs. Frank Manders, Mr. and Mrs. Peter Brassers, Mr. and Mrs. Earl Friek, Mr. and Mrs. Fred Hinkley, Green Bay.

H. D. Eouachamp of Green Bay was a caller here Friday.

## \$157,126 TO PAY COUNTY BILLS FOR LAST DAYS OF YEAR

December Started With Comfortable Balance, Clerks Report Shows

With the beginning of December, county departments had a balance of \$157,126.58 with which to finish the last month of the year, according to November financial statement of John E. Hantschel, county clerk. The county auditors will be here in a few weeks to make the annual audit.

The only liabilities listed by the clerk are \$15.88, whereas the actual cash assets amounted to \$114,573.91 and accounts receivable totaled \$42,553.07. The fund for general county purposes showed a balance of \$64,536.59, highway funds totaled \$33,524.89 and miscellaneous funds \$59,049.92.

Overdrafts existed in some of the funds. They were caused by advances made by the county in anticipation of refunds from the state. The overdrafts were as follows: Training school fund, \$1,050.29; supervisors of common schools, \$1,826.62; state patrol, \$8,047; school superintendent, \$598.35; bridge fund, \$1,488.69.

Highway funds showed balances as follows: County and town aid roads, \$11,791.36; county-state road and bridge fund, \$1,568.15; road construction, \$23,502.75; county garage, \$713.90; county patrol, \$5.91; bridge emergency, \$2,477.21.

Balances also existed in the following funds: Asylum \$13,675.49, sanatorium \$9,587.59, school library \$556.30, teachers institute \$156.17; county nurse \$1,919.73, soldiers' relief \$324.47, blind pension \$4,108.30, mothers' pension \$11,564.62, tax remission, \$1,514.34, highway bond and interest \$14,591.38, soldiers bonus bond and interest \$487.50, emergency fund \$233.42, dog fund \$4,005.07.

### Postpone Service

The Y. M. C. A. Gospel team's engagement to conduct the evening services in the Rev. J. P. Jordan's church at Brillion next Sunday, has been postponed because of the condition of the roads. The date will be announced later.

### HELPED LITTLE GIRL'S COUGH

"FOLEY'S HONEY AND TAR COMPOUND is fine. My little girl had an awful cough. I got a bottle of FOLEY'S HONEY AND TAR COMPOUND and gave her a few doses and she was greatly relieved," writes Clyde H. Benson, Maribook, Virginia. The best remedy for coughs, colds, hoarseness, relieves promptly and effectively. FOLEY'S HONEY AND TAR COMPOUND has stood the test of time, serving three generations. adv.

## Dollars Or Deaths Is Issue In County Drive For Relief Of Germans

Contributions Beginning To Come—Lack Of Employment Means Famine This Winter For Millions, Reports Say

"Dollars or deaths—that's the issue," declared Herbert Kaufman, noted editorial writer, in presenting the need of relief money from Americans to feed the starving Germans. Outagamie-co has chosen the former, and has begun putting its dollars into the Wisconsin fund to help buy food for the sufferers.

"Germany pays," says Kaufman. "Hunger and rickets and tuberculosis are collecting reparations from the Germans, from the jobless, the foodless—from ragged school boys and furnished shop girls—from shabby students and penniless invalids—from palsy and paralysis and white haired old men."

"If battle flags are still waving in your heart, let 'em die—the withered babe at shrunken breast, the mother and her shivering toddlers," he says.

### SITUATION GRAVE

The situation in Germany is a grave one indeed, Judge A. C. Backus of Milwaukee, state relief chairman, informs the local committee, of which Mayor Reuter is chairman. Ambassador Houghton who is United States representative at Berlin, Germany, says matters drift from bad to worse, and that help must come soon.

Purchasing power of millions of the industrial population has been so affected by the great unemployment that they no longer can provide a minimum ration for themselves and their families. The wages received in marks by those who are able to find work are so low that they will not purchase sufficient food. Virtual famine therefore faces the people this winter. Children are greatly undernourished and the death rate begins to mount because disease takes hold easily and work havoc quickly.

America is raising \$10,000,000 and Wisconsin outside of Milwaukee already has given more than \$50,000. Food has been purchased with part of the funds and is being distributed to those in the cities who are destitute. The American Quakers have charge of the distribution. Fully 20,000,000 people are in want, of which 7,000,000 are children.

### PRaises AMERICA

President Ebert of Germany has high praise for the relief work that is being done for his people. In a message to Gen. Henry T. Allen, commander to the United States Rhine army, he says: "We have learned of and our hearts have been deeply touched by the tangible sympathy in

America toward millions of undernourished children in our country and that a committee to raise funds in America to extend aid to our children is headed by you. It is needless to say how deeply we appreciate this evidence of sympathetic interest."

No personal solicitation is being made in Outagamie-co, but each giver is asked to go to his nearest bank and pay his money. An official receipt will be given him there, and this money will be turned over to the county committee.

Churches are expected to take offerings Sunday, if they have not done so already. Emmanuel Evangelical church of Appleton, and others of this denomination in the county have been aiding the needy Germans for several months. Large amounts of clothing have been shipped and money also has been sent for food. The church has heard men from Germany tell firsthand about conditions there. It has its own agencies of distribution of the commodities after they arrive. These congregations expect to continue their relief work.

### DIRECTORS OF Y. M. C. A. ADOPT BUDGET ESTIMATE

The budget submitted by A. H. Eads, H. W. Russell and James A. Wood was adopted at the meeting of the board of directors of the Y. M. C. A. The committee will be retained the coming year and will meet quarterly. The budget is slightly in excess of the one last year. Members of the employed staff submitted their reports.

The insurance committee recently appointed to decide upon the amount of insurance to carry on the new addition will meet Saturday afternoon to make its recommendation.

## HARRISON FARMER CLAIMS BEET TITLE

BY W. F. WINSEY

In the territory about Little Chute, Kimberly and Greenville, Chas. Otto Jr., town of Harrison, Calumet-co. claims to be the largest raiser of sugar beets in acreage and number of tons produced.

The record for last summer on which he bases his claim is 24 acres harvested and a yield of 200 tons.

It is profitable to raise a crop of sugar beets. The planting, cultivation and harvesting do not conflict with other work on the farm. A family does the handwork. A beet crop does not exhaust the soil and the thorough cultivation leaves the soil in good condition for a bumper crop of oats the following season. The grower is reasonably certain of getting a fair return for his labor and investment and for these reasons, Mr. Otto says, that as a sugar beet raiser, he is in the business to stay.

Making use of a special attachment on his planter, Mr. Otto fertilizes his field when he sows the beets. The fertilizer was furnished by the company last season at a cost of \$32 a ton and Mr. Otto used 125 pounds to the acre.

Mr. Otto has decided to plant 20 acres to sugar beets next season.

## CHANCE FOR MORE GIRLS IN CLASSES OF WOMAN'S CLUB

Busy Season Is Outlined For Recreation Department Activities

The completion of a city basketball league for girls will be the first accomplishment of the recreation department of Appleton Woman's club when its new semester begins on Monday. The two Appleton Woman's club teams, the Bats, will combine with industrial teams and group teams to form a league and to make a regular league schedule of games. Miss Marie Heineman, physical director of Appleton Woman's club, is assisting with the formation of the groups.

Several teams are now in the process of formation and others will be welcomed. Any group of former basketball players who would like to organize their own team and join the league as a team may make arrangements to do so by conferring with Miss Heineman.

### MANY OPPORTUNITIES

The program of the recreation department for the coming semester offers great opportunity for the development of interests. On Monday evening there will be bowling. There is an opportunity for from three to six additional girls to bowl on this evening, three as regulars and three or more as substitutes. The ukelele club will continue to meet on Monday evening but arrangements will be made for any new members who wish to come in. Aesthetic dancing class will meet on this night and there is room for new members in this class also.

The activities of drama class on Tuesday evenings will be varied for a few weeks. Arrangements have been made to have Mrs. John Engel, Jr. give some work in voice control. Miss Ruth McKennan will give pointers on makeup and Mrs. Taylor on stage deportment. Any girls who are interested in these details of stage craft and who are not interested in taking part in plays are urged to join for the lecture part of the course.

### GYMNASIUM CLASSES

Moderate and strenuous gymnasium classes will meet on Tuesday. Beginners will be taken in both of these classes.

On Wednesday evening a folk dancing class will be given if there is a demand for it. Folk dancing through the efforts of Miss Martha Chandler has become popular in Appleton and it is expected that there may be a small class. This feature cannot be given unless a large enough number want it.

Thursday evening will be the time of the social dancing class. All girls who wish to learn to dance correctly and gracefully are urged to join this class. Thursday night is set aside in the physical education department for the basketball league. It is possible that the league will have some games on Wednesday evening. The sewing class will meet also, but the evening has not been decided upon.

### BOAT CLUB MEMBERS FEAR CLUBHOUSE WILL BE MOVED

Reports that the common council expects to remove the building at Leiman's landing occupied by them caused members of Appleton Motor Boat club to discuss their future plans at their meeting Thursday evening.

No definite action was taken because there was some doubt as to whether the council contemplated taking any steps in the matter at present. So far the club has not been served with notice to vacate.

Most of the boat houses in that vicinity removed a year ago at the request of the city in anticipation of opening River-rd. The opening of the thoroughfare still is pending.

### Annual Church Meeting

Election of two elders and two deacons will take place at the annual meeting of Reformed church congregation at the church at 2 o'clock next Sunday afternoon. Other important business is to be transacted.

## Four Dollars Will Buy Today What Five Dollars Bought in 1920, Babson Says

Cost Of Living Has Decreased 20 Per Cent Since Peak Prices Of Four Years Ago

Wellesley Mass., Jan. 5.—Roger W. Babson's analysis of the cost of living during 1924 is decidedly cheering to the average householder.

"The cost of living has always seemed too high and will probably continue to seem too high," says Mr. Babson in a statement issued today. "We have envied the good old days when sugar could be bought for 5 cents a pound, a pair of high grade shoes for \$2.50, and a fairly good suit of clothes for \$20.00. Going back about ten years to 1915 we find present living costs 72 per cent higher than that is, we must spend a \$1.72 today to get what a dollar would buy in 1915."

"Judged on a 1920 average, however, we find present living costs in a more favorable light. In 1920 it cost \$2.16 to buy what one dollar would buy in 1915. Since that time we have experienced a very healthy decrease in living costs amounting to 20 per cent. Four dollars today will buy what five dollars bought in 1920. If your income is the same as it was then you can enjoy the same standard of living and have one-fifth of your money left over."

### FOOD COSTS DOWN

"This decrease has not occurred in all items. If we examine the things ordered by the Bureau of Labor statistics of the United States department of labor in making up their cost of living figures, we find that four have decreased, while two have increased during these past three years."

"Food costs, for instance, have gone down about 32 per cent. The amount of food that could have been bought for a dollar in 1920 can now be had for 68 cents. It is probable that the food costs in 1924 will remain about this same level. The long trend, however, is probably downward."

"The next important item is clothing, which has declined from 1920 with the exception of a slight increase this last year. The total decline from a high point amounts to nearly 40 per cent. The \$50 suit of 1920 can be bought today for \$30 and the \$100 dollar suit may be had for \$50."

### HOUSING COSTS UP

"Housing is one of the exceptions in the general trend of living costs and is now a greater burden to the family budget than it has been at any time during the past ten years. Rentals on the average this winter are about 18 per cent higher than in 1920 and about 65 per cent above the prewar level. Housing costs move slowly and while the high point has probably been reached, the decline will be gradual. Fuel and light is another item that is held up with a tendency to increase during these past two years. The present level is just about the same as the average for the last half of 1920. Fuel and light still cost about

50 per cent more than in pre-war times. "Furniture costs are about 23 per cent below the high point and when we come to the all inclusive classification labeled 'miscellaneous' we find that the average is almost as high as in 1920, an actual decrease of only about 5 per cent has been made."

### FEW CHANGES IN 1924

"Looking ahead into 1924 we find that the average family man can now buy the things that cost him a thousand dollars in 1920 for but eight hundred dollars. His expenditures for food, clothing and furniture, and miscellaneous items are less than they were three years ago, but his housing and fuel costs are higher. During the next twelve months the largest reduction probably will come in fuel. Housing should be slightly lower but no great reductions can be looked for. The other items that go to make up living costs will remain at about their present levels with a possible slight downward tendency in special instances."

"General business activity as reflected in the Balsonchart is running at 3 per cent below normal and there is small foundation for a business boom that might send prices up again. Discouraging the probable effect of this outlook for living costs on the security market, Mr. Babson continued:

"The four most prominent groups of stocks representing companies whose products enter into the food budget are the meat packing stocks, the fruit packing, the sugar and the biscuit stocks. There is a wide dif-

ference in the position of these four groups. Meat packing and sugar stocks, broadly speaking, are relatively low. Biscuit and fruit packing stocks are relatively high. The first two groups have never fully recovered from the drastic readjustment of 1920 and 1921. The last two have been abnormally prosperous in the past two years and the stocks have reached record high levels and have not receded materially from those levels. In looking for bargains one would naturally pass up the biscuit and fruit packing stocks purely from the standpoint of price, particularly so when this conclusion would be confirmed by the trend of general business conditions. In looking beneath the surface on the other two groups one is naturally brought to the conclusion that in spite of the relatively low price level there is little in prospect that would suggest any different trend than that of the stock market as a whole. Nothing would seem to be lost by pursuing a waiting policy."

## BADGERS ARE SEEKING SECRETARY MEETING

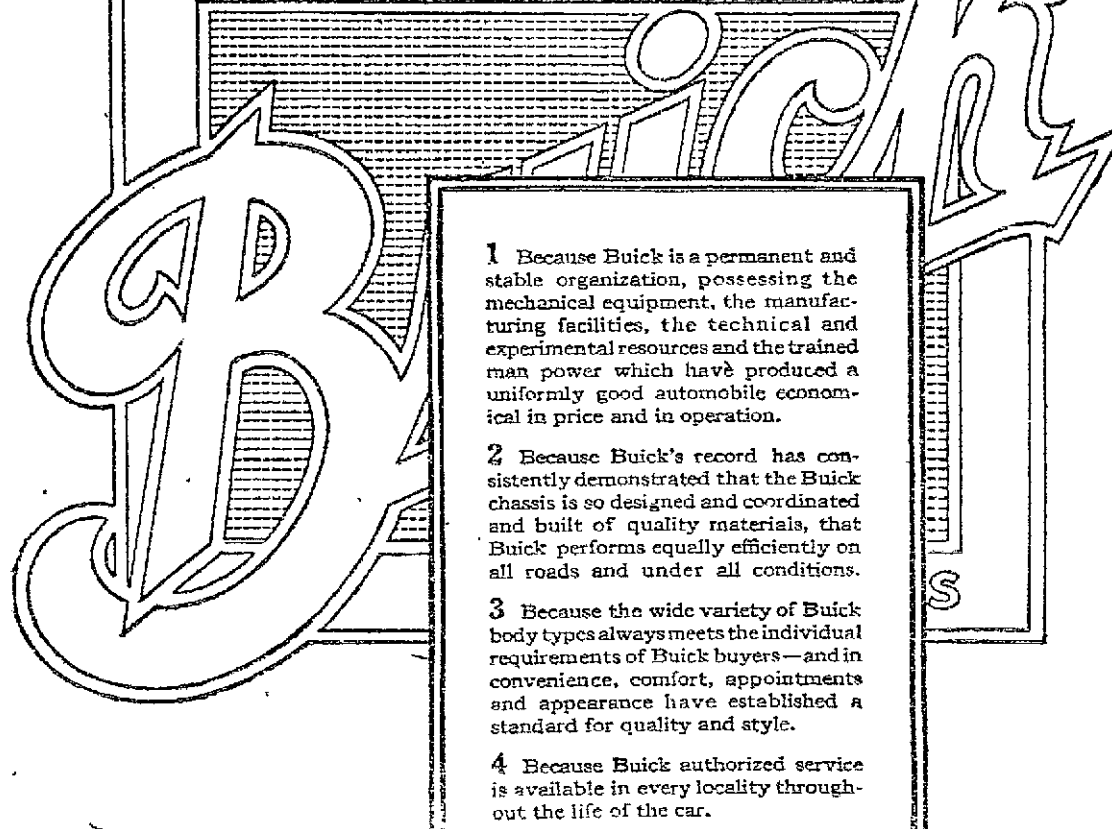

Commercial secretaries of Wisconsin are trying hard to induce the National Association of Commercial Secretaries to hold its annual convention in Milwaukee next fall. Hugh G. Corbett of this city, president of the Wisconsin Commercial Secretaries association, and L. C. Whittier, managing director of Milwaukee Association of Commerce, both are exerting their influence to that end. Wisconsin never has had this gathering, and the invitation is extended

for the good it will do the state to have many of its secretaries present to gain new ideas and enthusiasm. The board of directors of the national body will meet Saturday to choose the place.

A WISCONSIN NATIONAL LIFE OR ACCIDENT AND HEALTH POLICY "Always Make Best of Friends" W. H. VANDERHEYDEN, General Agent Office Phone 398 772 College Ave. Res. Phone 1545

## These are the Fundamental Reasons why

VALVE-IN-HEAD

- 1 Because Buick is a permanent and stable organization, possessing the mechanical equipment, the manufacturing facilities, the technical and experimental resources and the trained man power which have produced a uniformly good automobile economical in price and in operation.
- 2 Because Buick's record has consistently demonstrated that the Buick chassis is so designed and coordinated and built of quality materials, that Buick performs equally efficiently on all roads and under all conditions.
- 3 Because the wide variety of Buick body types always meets the individual requirements of Buick buyers—and in convenience, comfort, appointments and appearance have established a standard for quality and style.
- 4 Because Buick authorized service is available in every locality throughout the life of the car.

## What About 1924?

Well, most of us will get out of 1924 about what we put into it. Those who spend less than they earn, and invest the margin in safe income-producing securities, will reach December 31, 1924, richer, wiser, stronger and safer than they are as the new year starts.

More than 8,000 Wisconsin men and women made 1923 a good year, in this way, by investing their savings in 7% preferred shares of Milwaukee Electric and Wisconsin Gas & Electric. Those who paid all cash for their shares are drawing \$7 a year in cash dividends on each \$100 share, paid by checks mailed to shareholders, \$1.75 March 1, \$1.75 June 1, \$1.75 September 1, \$1.75 December 1, every year. Those who bought shares on monthly payments — \$5 down and \$5 a month per share—are getting 7% interest on their payments, credited on the last one, and will begin drawing 7% dividends when their shares are paid for.

We have only \$350,000 of the \$3,000,000 issue of Milwaukee Electric 7% cumulative preferred shares left to sell. We expect to sell these during the next five or six weeks. Other issues will be offered from time to time during the year, with the State's approval, as new capital is needed to finance the growth of Milwaukee Electric and its associated utilities.

If you are not yet one of the preferred share owners of Wisconsin's largest and strongest electric service company, or if you wish to increase your investment in the business, we shall be glad to have you come in and talk it over with us, or to send a salesman for your order, at your convenience. Mail orders filled by registered letter.

Manitowish	1	0	100%
East Green Bay	1	0	100%
Sheboygan	0	1	0%
West Green Bay	0	2	0%

Grit, speed and hard work Friday night carried the Appleton high school quintet to a 14 to 11 victory over Sheboygan high's basketball team in a whirlwind contest at Armory G. This was by far the most important game on the Appleton schedule, and by winning, the local youngsters upset all the pre-game dope. Not one of the men of Coach David Wilson's string is a veteran and the team had had no previous experience. Sheboygan took the lead in the first quarter and when the whistle blew for the second, the score stood 5 to 4 in its favor. This play in the third quarter was nip and tuck, but the Chair City schoolers kept a lead of one point.

The final period was an exhibition of the scrappiest and fastest work seen on the local floor this season and was featured by three wonderful shots by Cole, speedy forward, which put Appleton in the lead by a three point margin. The husky Sheboygan outfit failed to make a basket in the last quarter, the two free throws evened the score somewhat, and when the game ended the tally was 14 to 11 in favor of the home team.

Courtney scored the first points of the game after a few seconds of play when he dropped the ball through the ring twice in rapid succession. After he and his mates had eluded the Sheboygan defense and chased the ball up and down the floor several times. The Chair City men overtook the local youngsters however, scoring two baskets and turning a free throw into an extra tally. They missed a chance to take a comfortable lead when four free throws went wide of the iron ring. However, and the end of the first half showed them but one point in the lead.

Joe Knock dropped the sphere into the basket right off the reel in the second half, copping a 6 to 3 lead, and Cole followed with another basket. However, three minutes later, Chair City players gave them the lead, 9 to 6, and when an Appleton man missed a double freethrow he threw away his chance to offset the Sheboygan team's advantage.

**COLE SHOTS THREE**  
Cole's infallible shooting roused the fans to roars of applause when he dropped the ball into the basket three times in rapid succession for a 14 to 9 lead in the final quarter. The Appleton forward appeared to be "hot," and took chances at all angles. The local youngsters drove through the Sheboygan defense chiefly by means of Courtney's and Stammer's speed and grit, and almost every time the ball went into Cole's possession, that youngster shot it through the ring despite the best efforts of the husky Sheboygan men.

The Chair City men took two more points on free throws late in the final quarter, but the Appleton men had tightened their defense and did not allow their opponents to score a basket in the fourth period. The Sheboygan team brought the ball up to their basket several times in this quarter, but were unable to drop it through the ring against the Appleton defense. The contest ended with Appleton in the lead, 14 to 11.

**The lineup:**  
Sheboygan—Lindsey, R. F. Schutte, L. F. Uhl, C. Vandree, R. G. Long, L. G. Appleton—Courtney, R. F. Cole, L. F. Hornbeck, C. Hillman, R. F. Stammer, L. G.

**Substitutions—Spitz** for Lindsey, Broz for Schutte, Scheurle for Hornbeck, Murphy for Courtney, Hornbeck for Courtney, Courtney for Stammer.

**SECOND STRING WINS**  
In the opening game, Appleton High school's second team humbled the Company D Doughboys, 13 to 6. Four baskets in the first half are one free throw for the Doughboys gave the second string a lead of seven points, and although the doughboys came back strong in the second half they were unable to catch up. Scoring was even in the second half, as each team copped five points.

Bowley starred for the Appleton High school team in the first half. After Frazer had started proved his worth with a long shot through the ring. Bowley followed with three more after he had earned the ball down the length of the floor. Bowley's hand took him through the ring and the first half rather awkward until they had become accustomed to the game and tightened up, which they did in the second half. With about ten seconds to go in the initial half, Bowley dropped the ball through the ring on a fast break and scored the first point for his team.

The second half was fast blood in the Appleton High school's hands. A pretty shot and O. Radtke followed with another. However, Bowley and Frazer offset these points with a couple of baskets and the Doughboys dropped another freethrow into the ring. The Doughboys were unable to cop enough points to even the score. Bowley's lead in the final half was brilliant shot just before the end of

Substitutions—Bogan for Munster, Crabbe for Bogan, Boehme for Rietz, D. G. for Boehme, Gallagher for Pfeiffer, Zassman for Bodzone.

## SANGOR WILL BOX CHARLEY DODGE AT GREEN BAY JAN. 14

Kansas Fighter Has Battled In 60 Contests; 22 Knock-outs On Record

Green Bay — Joey Sangor, the ghetto featherweight star, who has been ideal for months owing to an injured hand, will resume his fistie business against Charley Dodge of Wichita, Kas., in a ten round bout at Green Bay on the night of Jan. 14. Joey's brother, Lou, announced on Friday. The weight for the match is set at 123 pounds.

Dodge, although unknown here, has engaged in sixty fights, twenty-two of which he won by knockouts. He is called a pocket edition of Jack Dempsey, being almost a dead ringer for the champion, with the exception of his stature.

The Kansas lad will be in Milwaukee next Monday and will work at Morgeroth's gymnasium as per the demand of the boxing commission moulis, who desire to pass judgement on him.

## K-C MILL HUMBLER APPLETON BANKERS

Kimberly-Clark Mill team Friday evening took the Citizens National Bank quintet of Appleton into camp, 40 to 14, in a one-sided game at the new Kimberly clubhouse. At the end of the first half the Millmen had piled up a 22 to 6 lead, and nine more baskets in the second half gave them the game by a wide margin.

This was the first game played by the Kimberly team, and according to the showing made by the Millmen, they are due for a successful season. Louis Loose played a brilliant game for the K-C quintet, while McKenzie and Boehme starred for the invaders.

The Millmen have arranged a contest with the Hortonville Merchants for next Wednesday, and expect to handle their outfit also in spite of its mousing record.

The Nut Cracker

FIRO says he was in bad shape after the Dempsey fight. What he means is, that he was in bad shape after the fight.

An education in the school of hard knocks may be all right, but it doesn't seem to get the anvils anywhere.

Evidence is at hand showing that Babe Ruth was the best all-around player in the big leagues last season. His girth measured 48 inches.

Jim Corbett asserts footwork is the prime essential in boxing. But of course a bicycle will answer the same purpose.

WE EXPECT TO HEAR ANY MINUTE NOW THAT THE REPORT THAT ONE OF THE SMITH BROTHERS GOT A SHAVE IS A BARE FACE LIE.

A Cincinnati fireman has signed with the White Sox, but we refuse to say he ought to get the league on fire.

A young expert rises to remark that John L. Sullivan was a ham... it may develop that Napoleon was merely a loud swinger.

The British will never be good ball players because they can't throw, says McGraw. But he neglects to state whether he meant the ball or the ball.

Another reason why baseball is impossible in England is that none of her judges ever fined the Standard Oil Co. \$25,000,000.

ON NEW YEAR'S DAY CONNIE MACK MADE THE PREDICTION THAT THE ATHLETICS WOULD FINISH SECOND PLACE THIS YEAR. MAYBE HE WAS UP LATE THE NIGHT BEFORE, TOO.

Georges Carpentier has bought a racing outfit. Someone must have told him Siki's coming home.

We are told that mah jong is just a passing fad. Does that mean it is something like craps?

FORMER BADGER MENTOR MAY TAKE OREGON POST

Madison — John R. (Big John) Richards, for four years head coach at University of Wisconsin, is one of several coaches being considered for football coach at the University of Oregon, according to information received here on Thursday. Richards resigned as Badger mentor at the close of the 1922 season. He at present is located in Los Angeles.

## Post-Crescent Holds Races To Determine City Championships

Gold And Silver Medals For Place Winners In Eleven Events And Trophy For City Titleholder

The second annual ice skating tournament for the championship of Appleton will be conducted by the Appleton Post-Crescent in Jones park on Sunday afternoon, Feb. 3. Although the weather has made it impossible to get the skating rinks in shape for use thus far, there has been great interest in the 1924 ice classic and it is believed a record breaking number of skaters will get in their entries.

Gold and silver medals will be given to the winners of first and second places in the 11 events which make up the afternoon's program and in addition a suitable trophy will be given to the senior who is awarded the city championship. The title will be determined on a point scoring system.

**MUST BE AMATEURS**  
Every amateur skater in Appleton is invited to enter the tourney. There is no entry fee and the only stipulation is that the skater must be an amateur. Skaters who have received pay for skating are barred from the race. Entrants must be residents of Appleton.

Five classes have been established for the races so that every skater will have an equal chance to win the splendid trophies. Skaters can enter only the class to which they are entitled by age, except that winners in each class last year cannot again compete in that class but must enter in the next highest class.

That means that winners in the middle class last year must enter in the intermediate class this winter if they wish to compete and intermediate winners a year ago must race with the seniors on Feb. 3.

An entry blank is printed on this page. Skaters are urged to fill in their names, ages, addresses and check the events they will enter and send or bring them at once to the

regular periods, but the play becomes intensive in order to gain speed. Every basketball player must learn to conserve his strength so as to distribute it evenly over a given playing period. When a model is posing for an artists the model must rest every so often—though that rest is very short compared to the posing time.

So it is in basketball. Remember that the heart, between beats gets eight hours' rest out of 24, though it never stops. Players must learn to rest while in the game, and still be efficient in team play. Statistics show that on an average not more than two players are in action at a time during play. Therefore it is necessary for the three inactive players to learn to rest during that time, no matter how short it may be.

Get the members of your squad interested in the body—the development of speed, strength and accuracy—then proper care will come naturally.

Once a boy becomes interested in the game he will take the best of care of himself and will develop a knowledge of the sport. Then it is the coach's duty to assist him in applying it.

Morally a good basketball player must be a fair play. The moral status of any youth determines his growth as a player. If a boy does not play fair at the beginning of his basketball lessons he has no hope for success. Only thorough, clever players with knowledge and respect for the game can really play "dirty," as we call it on the court, and the REAL man or boy will not use his cleverness to play "dirty."

A foul player is a detriment to any well organized team. It means that he substitutes foul play for honest efforts. For instance, there is not excuse for one player deliberately fouling another who has the ball. It is only morally wrong to shove the opponent, but it is playing the game wrong. To play the game properly the fouling player should exert energy and cunning enough to take the ball away from his opponent by fair means.

A foul player is always a detriment to a good team—he plays to defeat rules and not opponents, thus stunting the growth of the qualities that make for success in both the game and in life.

I have a few definite suggestions for helping the boys get into the best of condition. Runners practice over a longer course than they intend to run for endurance, and over a shorter course for speed.

When we start practice at the beginning of the season we play longer than the regulation period, both to develop endurance of body and mental control. Then the periods of practice are shortened to less than the

skating editor of The Post-Crescent. Entries close at noon on Friday, Jan. 25, so that the definite program can be arranged.

The five classes in the tournament are as follows:

**TWO CLASSES FOR GIRLS**  
Junior boys, for youngsters 14 years and younger. Boys who have reached their fifteenth birthday are not eligible to skate in this class. The intermediate class is for boys of 15, 16 and 17 years. Skaters who reach their eighteenth birthday anniversary on or before the tournament must enter in the senior class.

Two classes have been established for girls. The first is for girls 13 years and younger and the second is for girls 16 years and over.

Two events are scheduled in each of the junior and intermediate classes and in the girls classes, and three in the senior class. The relay race was dropped this year.

**CITY CHAMPION**  
The city championship will be determined on a point system. Senior skaters will be given five points for each first place they win, three points for each second and one point for each third place. The skater with the largest total will be declared the city titleholder for one year. A suitable trophy will be awarded.

Three events are scheduled in the senior class: 220 yard dash, 440 yard dash and mile race.

In the event there are a large number of entries for any one elimination race, the Post-Crescent will conduct a tournament to determine contestants in the final races. In no event will more than ten skaters be permitted to start in the finals. If there are more than that number entered elimination contests will be held.

Competent officials will be appointed to superintend the races. More details of the contest will be announced from day to day.

Skaters are urged to fill in the entry blank printed on this page and return it as soon as possible to the skating editor.

**FOND DU LAC WINS HARD GAME FROM GREEN BAY**  
Fond du Lac—Fond du Lac High school defeated West Green Bay high school in a thrilling basketball game here Friday night, 13 to 10. A

## LUMBERMEN LOOK FOR PRICE BOOSTS

Sharp Demand For Building Material Expected In Few Weeks

The lumber industry has entered 1924 in a very strong position, says the American Lumberman, Chicago. The holidays normally are featured by trade dullness, during the last week demand was active, and in many, while prices developed additional strength these on a number of items advancing.

Retail dealers report that last year was one of their most successful, building having been very active in nearly all cities and larger towns, not only during the usual building season but, on account of the great need of housing and the remarkably mild weather, up to the very end of the year. Prospects in the building line remain very encouraging, and a busy spring season is looked forward to. Retailers' stocks are in poor condition, as virtually no transactions not necessitated by immediate requirements have been entered into during the last several months, and a great deal of buying will be necessary during the next few months, and in fact now beginning to develop, in order to bring stocks into shape to meet prospective needs. Sentiment in the country districts is much improved, as a result of the financial recovery of the agricultural industry, and country retailers are facing the future with renewed confidence.

Lumbermen in fact view the situation as most promising. Their position is exceedingly strong. While production during 1923 was heavy, demand and shipments were likewise, and stocks have been very little, if at all, improved, in the east of the leading construction softwoods and hardwoods. Facing what undoubtedly will be a prosperous business season, there is therefore little doubt regarding price movements within the near future. The absence of forward buying, which has been a marked feature of recent trading, as kept prices on a comparatively low level, but the last several weeks have witnessed a strong upward price trend that is bound to result in progressive advances as buying for spring stocks develops.

## SOCIAL HOUR AND DANCE AT FIRST WARD MEETING

A social hour and dancing will conclude the program of the First Ward Parent-Teachers association at its meeting Monday evening. An orchestra will provide music during the meeting and also for the dancing afterward.

Mrs. George N. Tremper of Koshong, president of the Wisconsin Parent-Teachers association will be the speaker of the evening. Ending of the work the state is doing through this organization.

## TIPS FOR TAXPAYERS

## NUMBER 5

A single person, if the head of a family, is allowed the same exemption granted married persons, \$2,000 or \$2,500, according to the amount of net income. A head of a family is a person who actually supports and maintains in one household one or more persons closely related to him by blood, marriage, or adoption and whose right to exercise family control and provide for these dependents is based upon some moral or legal obligation.

More support of relatives does not entitle a taxpayer to a status as the head of a family. The dependent must be a member of the taxpayer's household, and the taxpayer must, in fact, exercise family control over such dependents.

In addition to a personal exemption a taxpayer is granted a credit of \$400 for each person depending upon him or her for chief support if such person is under 18 years of age or incapable of self-support because of mental or physical defectiveness. The term "mentally or physically defective" includes not only cripples and those mentally defective but persons in ill health and the aged.

Such a dependent need not be a relative to the taxpayer, nor need he be a member of the taxpayer's household. A son living in New York who is the chief support of an aged mother in Baltimore is entitled to a credit of \$400. Were the mother a member of the son's New York household, the son, as the head of a family, would be entitled to an exemption of \$2,000 or \$2,500, according to the amount of net income, plus \$400 for a dependent. The \$400 credit does not apply to the wife or husband of a taxpayer, though one may be totally dependent upon the other.

## CITIZENS PROTESTED WHEN SNOW WAS HAULED AWAY 25 YEARS AGO

While observing the hauling away of snow on College-ave Thursday, Gustave Keller recalled the protest that was registered with the city authorities by taxpayers the first time it was done more than 25 years ago. He was a member of the common council at the time and previous to that date no attempt had been made to get rid of the snow. In the early days it was removed by hand, and shovelers being assigned to each sleigh.

Mr. Keller was a member of the common council also at the time the first pavement was laid and when street sweepers were appointed to keep it clean another protest was registered.

## C. E. WILL INSTALL OFFICERS SUNDAY

Installation of officers will take place at the meeting of the Christian Endeavor society of the First Congregational church at 6:30 Sunday evening.
